

WEBSITE REDESIGN & DEVELOPMENT PROPOSAL

PROPOSAL COVER

TO: Al-Jabri Safi Management

FROM: Njuguna Devs

EMAIL: njugunadevs@gmail.com

DATE: May 16, 2026

PROJECT: Premium Website Makeover & Product Catalog

CURRENT WEBSITE: al-jabrisafi.com

PROPOSAL ID: 2026-004

EXECUTIVE SUMMARY

We are pleased to present this comprehensive proposal for a complete website overhaul and revamp for Al-Jabri Safi. As a premium brand delivering natural beauty products across Nairobi and Bungoma, your online home should reflect that exact same luxury, purity, and aesthetic excellence.

The current website will undergo a complete visual and functional transformation. We aim to build a highly aesthetic, modern digital storefront that beautifully showcases your natural product line. While keeping the system lightweight

without direct payment gateway integration, we will implement custom web forms that effortlessly capture client order data and instantly send it back to your team for fulfillment.

- **Project Investment: KES 20,000**
- **Timeline: 7–21 Days Delivery**
- **Revisions Included: 2 Complimentary Rounds of Revisions**
- **Post-Launch Support: 3 Months Free Maintenance & Security Updates**

PROJECT OVERVIEW

About Your Business

Al-Jabri Safi is a premium, natural beauty product store dedicated to providing high-quality skincare and wellness items to a discerning clientele. Operating out of both Nairobi and Bungoma, the brand represents purity, organic luxury, and efficacy.

Project Objectives

1. **Elevate Brand Aesthetics: Give the site a high-end, clean, and modern "organic luxury" visual makeover.**

- 2. Streamlined Product Display: Showcase the premium beauty product list clearly with high-quality imagery and detailed descriptions.**
 - 3. Frictionless Lead & Order Capture: Deploy responsive web forms to collect customer order details and data seamlessly.**
 - 4. Maximize Mobile Performance: Ensure the layout looks flawless on smartphones, where most beauty product browsing happens.**
 - 5. Build Authority & Trust: Position Al-Jabri Safi as the premier natural beauty brand in Kenya through polished UI/UX design.**
 - 6. Site search engine optimization (S.E.O) Improve site search engine optimization to help generate leads and also for it to be easier for the clientele to find Al-jabri safi.**
-

SCOPE OF SERVICES

Website Pages Included

- Home Page: A stunning, visual-first landing page featuring a premium hero section, brand story highlights, featured products, and clear call-to-actions (CTAs).**

- **About Us:** The story of Al-Jabri Safi, emphasizing your commitment to natural, premium ingredients and your roots in Nairobi and Bungoma.
- **Product Catalogue / Collection Page:** A beautiful, organized grid layout showcasing your natural product list, pricing, and benefits.
- **Order / Inquiry Form Page:** A dedicated, clean web form interface where clients can select items, input shipping/contact data, and submit orders directly to you.
- **Contact Us:** Business hours, store locations (Nairobi & Bungoma), social media handles, and a general inquiry form.

Technical Features & Mechanics

- **Utility-First & Aesthetic Layout:** A minimalist design emphasizing clean typography, soft natural tones, and spacious layouts that make your products pop.
- **Integrated Web Forms:** Tailored data collection forms that capture product selections, quantities, delivery addresses, and phone numbers, routing them directly to your email backend.

- **Mobile-First Responsiveness:** Fully optimized for fluid viewing across all screen sizes (smartphones, tablets, and laptops).
 - **Speed & Performance Optimization:** Clean codebase and compressed asset delivery to ensure rapid loading times on mobile networks.
 - **SEO Foundation:** Optimized page structures, meta titles, descriptions, and alt tags for natural beauty searches in Kenya.
-

DEVELOPMENT WORKFLOW & TIMELINE

Project Phases

Phase 1: Discovery & Aesthetics Planning (Days 1–3)

- Review of Al-Jabri Safi's current site assets and high-res product photos.
- Establishing the visual mood board (color palettes, typography options representing premium beauty).
- Wireframe layout approval from the client.

Phase 2: Design & Front-End Development (Days 4–14)

- **Building the user interface layout based on the approved style guide.**
- **Setting up the product listing layout and linking the secure data-collection web forms.**
- **Configuring responsive breakouts for mobile and tablet devices.**

Phase 3: Testing & Form Optimization (Days 15–18)

- **Rigorous testing of web form data delivery to ensure no customer orders are missed.**
- **Cross-browser and device compatibility checks.**
- **Client review and implementation of the two (2) complimentary revision rounds.**

Phase 4: Deployment & Launch (Days 19–21)

- **Configuring hosting and pointing the al-jabrisafi.com domain to the new platform.**
- **Final SEO check and going live.**
- **Handover of form management instructions to the Al-Jabri Safi team.**

Timeline Summary

Milestone	Duration	Deliverable
Discovery & Aesthetics	Days 1–3	Approved visual layout and wireframes
Design & Development	Days 4–14	Functional premium site with product lists
Testing & Revisions	Days 15–18	2 rounds of design/content updates
Launch & Handover	Days 19–21	Fully operational live website makeover

PRICING & PAYMENT SCHEDULE

Project Investment Range

The total estimated investment for this complete aesthetic site makeover is KES 20,000 the final agreed-upon investment due to features and total product variations.

Proposed Payment Breakdown

Payment Milestone	Percentage	Amount (KES)
Deposit (Upon Contract Signing to initiate design)	35%	7,000
Mid-way Milestone (Upon completion of core pages layout)	30%	6,000
Final Handover (Once site goes live on domain)	35%	7,000
Total Project Cost	100%	20,000

Note on Flexibility: The budget and milestone breakdowns are open to discussion and can be adjusted to match your immediate cashflow preferences.

What's Included

- **Complete premium visual overhaul of the entire website.**
- **Product catalog configuration (no limit on initial core list setup).**
- **Custom integrated web forms for order tracking.**
- **Full search engine optimization readiness.**
- **3 Months of dedicated post-launch technical support and maintenance.**

What's NOT Included

- **E-commerce payment gateway integration (M-Pesa API, credit cards checkout functionality).**
 - **Commercial photography fees (client to supply high-resolution images of beauty products).**
 - **Premium third-party font or asset licensing fees (if any are explicitly requested).**
-

TERMS & CONDITIONS

- 1. Agreement & Intent: This document serves as a design and development proposal for a website revamp between Njuguna Devs and Al-Jabri Safi.**
- 2. Asset Delivery: The timeline depends on prompt delivery of high-resolution product photography, copy updates, and logo assets from the client side.**
- 3. Intellectual Property: Upon final payment receipt, all rights, code access, design files, and platform logins belong entirely to Al-Jabri Safi.**
- 4. Scope Revisions: Changes or additions requested beyond the defined "product list and web form data collection"**

architecture may result in adjustments to the negotiable price range.

CONTACT & NEXT STEPS
